Dear Parents

I hope everyone is adjusting to the situation we now find ourselves in and you are managing to enjoy the extra time with your family.

In order to move forward with Home Learning your child now needs to be able to access the work set by their teachers on Google Classroom after Easter.

I have attached guidance which will help you to set up Google Classroom for your child. You will also find the class codes needed to enter your child's appropriate virtual class.

I am also sending instructions for your child to follow so they may manage to complete these steps themselves!

All of this guidance can be found on our website except the class codes. You will need to contact us via email if you have any questions regarding these codes.

I appreciate that this is new to you and your child and it may take some time to set this up for everyone. Please be patient and we will attempt to help all those who may need it.

After the Easter holidays the teachers will be setting work on Google Classroom where they can then give feedback to your child on the work they have completed.

You therefore have plenty of time to set this up for your child. Once your child starts to use Google Classroom they may encounter some initial teething problems as they familiarise themselves with the system. We will work through these problems with them.

We are in unique and uncertain times but we will do our best to ensure your child has access to the best resources we can provide.

Best wishes and keep safe and well

Kate Seddon
