

Y7 Music Homework Summer

For this homework you will be doing some online work using the teaching gadget website. Below are the steps to log in in case you have forgotten how to do it:

1. Type: www.teachinggadget.com into your address bar.
2. Click onto the log in tab and enter the User name: hexhamstjosephs
Password: music
3. When logged in scroll down and click on 'General Musicianship'.
4. Click on pitch.
5. You are going to work on identifying octaves at sight. An octave is eight notes higher than your starting note as we discussed in music lessons e.g. if you start on a C and count up eight notes you land on a higher C.
6. Scroll down to the 'Octave quiz level 1'
7. You will have to click on the line or space which is an octave above the starting note. You will need to practice this several times to become familiar with what each octave looks like
8. Once you are happy with your score after several attempts submit it to me.

If you struggle with any aspect, please come and see me in school.

Good luck
