

Spreadsheet Version				<b>Name:</b>	
Here is a shopping list of food items.					
We can use Sheets (a spreadsheet app) to help us work out the totals.					
You can fill this in using the formula for multiply.					
Save your copy and send to your Computing Teacher when you have finished.					
	<b>A</b>	<b>B</b>	<b>C</b>	<b>D</b>	<b>E</b>
<b>1</b>	<b>Item</b>	<b>Cost per item</b>	<b>Number purchased</b>	<b>Total cost</b>	<b>Formula used in column D</b>
<b>2</b>	<b>eg: Apples</b>	£0.27	4	£1.08	=B2*C2
<b>3</b>	Bananas	£0.10	8		
<b>4</b>	Onions	£0.05	7		
<b>5</b>	Potatoes	£0.04	25		
<b>6</b>	Yogurt pots	£0.50	4		
<b>7</b>	Pints of milk	£0.75	6		
<b>8</b>	Crisps	£0.25	10		
<b>9</b>	Chocolate bars	£0.30	10		
<b>10</b>	Pack of fish fingers	£2.00	2		
<b>11</b>	Loaf of bread	£1.50	3		
<b>12</b>	Orange juice	£0.79	2		
<b>Bonus task:</b>				<b>Total</b>	
Can you find the total?					
The total formula is =sum(list the cells you want to add up)
